

**Congratulations! You have purchased one or more Open Source Seed Initiative (OSSI) Pledged varieties!**

We are thrilled to be able to encourage open access to biodiversity as a partner seed company & participating breeder with OSSI. OSSI is dedicated to maintaining fair & open access to plant genetic resources worldwide by offering a new way to save &

exchange seed that ensures the seed will remain free of patents, licenses, & other restrictions.

Varieties that are registered as OSSI seed are accompanied by the pledge. The Pledge also requires that any subsequent distributions of OSSI seed, or of derivatives bred from OSSI seed, be accompanied by the pledge. In this way, OSSI intends to develop an expanding pool of genetic resources that are available now & in the future for unrestricted use by scientists, farmers, & gardeners. This pledge is a commitment to foster unfettered exchange of germplasm & the freedom to use the material for any purpose, with the single proviso that by accepting the pledge the user commits to allowing others freedom to use the material or derivatives of the material.

**The OSSI Pledge: "You have the freedom to use these OSSI-Pledged seeds in any way you choose. In return, you pledge not to restrict others' use of these seeds or their derivatives by patents or other means, and to include this pledge with any transfer of these seeds or their derivatives."**

**Free the seed!**
